Financial and Commercial

Stocks and Bonds

New York, Feb. 3.—Quotations advanced slowly in the stock market today. The market displayed unmistakable firmness apparently derived from a steady investment demand quite as much as from speculative purchases. The close found various representatives shares 1 to 2 points higher.

The character of the buying was indicated by the good demand for bonds and investment stocks. The new issue of New York State 4 1-2% sold at 108 5-8, a new high price. A \$7,400,000 issue of bonds guaranteed by Louisville & Nashville was oversubscribed.

The market was freed from influences which depressed it yesterday. Rock stand securities rebounded against their low prices. London, which sold extensively here yesterday, reversed its position.

The tone of the bond market improved. Rock stand refunding rose 3 1-4 above the low price. Total sales, par value, \$3,750,000. United States bonds were unchanged on call. Total sales today, 423,200.

New York Cotton

New York, Feb. 3.—Further liquidation of March contracts caused continuous nervousness in today's cotton trading and on the early advance prices eased off with the close steady at a net gain of 3 points on February, but generally 3 to 5 points net lower. Selling of the late months by houses with foreign or southern connections caused the decline and, while there seemed to be enough demand to absorb offerings around 11.95 for July, the market showed little rallying power, closing within 2 or 3 points of the lowest.

Southern mail advices claiming that the open winter had favored the development of insect pests and that there was a scarcity of sound seed in the southwest, may have contributed to this early advance, but the market soon met increased offerings of March contracts. Brokers supposed to be trading for one of the prominent local spot interests appeared to be selling March against purchases for July, while houses with Liverpool connections had a considerable volume of July selling orders. As prices worked off, scattering liquidation became more active and a few stop orders were uncovered on the break, which depressed the market about 5 to 7 points net lower. After the close of Liverpool the selling tapered off, as though early offerings had been on straddle accounts, and prices rallied 4 or 5 points from the lowest on covering. There seemed to be rather more selling from Southern sources on the bulge, however, and the market was more or less unsettled during the day.

Although foreign cables were encouraging and a 10,000 bale fire was reported at Houston, there seemed to be nothing particularly stimulating to the bill in the news of the day. Bears are one time sold rather

O'Gorman for Tammany Leader

New York, Feb. 3.—That Senator James O'Gorman has been already chosen to be placed on the throne from which Tammany Leader Charles F. Murphy is slowly but surely being ousted, is the opinion of many political sharps in New York. Murphy's main plan in connection with the impeachment of Pelzer in the face of the opposition of his own constituents, signed his political death warrant. O'Gorman's star has been on the ascendant ever since.

NEGRO FIEND NOT CAPTURED

Made Good His Escape From Pelzer Monday, Following

Returning to Anderson yesterday morning at 1:30 o'clock, Sheriff Joe H. M. Ashley and Deputy Sheriff Williams admitted that they had been unable to get any trace of the negro charged with attempted assault on the person of a well-known white woman of Pelzer.

Sheriff Ashley yesterday told an Intelligencer reporter that he kept up a strenuous search from the time he arrived at Pelzer until about one o'clock yesterday morning, but that he was unable to find any trace of the man or anyone who had seen him. He said that it was impossible for the blood-hounds to pick up any trace of the scent as there had been hundreds of people around the place after it happened and that no scent could be obtained after they had walked over the ground.

A search is still being maintained for the negro by some of the people of Pelzer and it is possible that he may yet be captured.

AND WORST IS YET TO COME

Anderson County Weather Man Says That Winter Has Not

According to predictions which in the past have often been tried and found true, the worst of the winter is yet to come and this section will experience some really cold weather. This is the prediction of W. H. Hicks, who was in Anderson yesterday. Mr. Hicks is noted throughout the county for his weather prognostications and the times out of ten he is correct. While here yesterday he also said that it would rain within the next 24 hours.

Mr. Hicks said that he had adopted the following as his motto for business and that it was getting good results for him and would for any other man:

“The man of Business is strictly business; he understands business; he talks business; he does business and is full of business; he does not meddle in other people's business; he worries others with his business; he does not let his business be worried by other people's business; he will soon be out of business; he gets into trouble in the lawyer's business; he gets out of it in his own business; he tells others to do it himself; he is the policeman's business; he tells others to do it and not let it himself; he is the policeman's business; he tells a stranger for the loan of a dollar, that is no business; he tells that loan is poor business; he writes this letter as a strict business; he presents this as a matter of business; he saves the enclosed as it is full of business; he mails it in an order and we will do business.”
